

ADD-A-BATHROOM

MODULAR SHOWERS

FPS980 (Flat Packed Shower)

If you're renovating an existing bathroom or building a new one and want the advantages of an easy to clean, no maintenance waterproof shower, then an Add-A-Bathroom shower cubicle is what you need.

All Add-A-Bathroom fully moulded shower cubicles have a specially designed anti-slip base and are made from sanitary grade materials. All cubicles can be fitted with a glass shower screen or stainless steel curtain rail.

Our showers are designed and manufactured with no sharp corners and have a glossy, durable surface finish that is a breeze to clean with most proprietary brand bathroom cleaners.

Our range of flat packed showers (FPS) is designed to make transportation and storage more cost effective. These units are a breeze to assemble and come complete with all fixings and sanitary grade sealant. All flat packed models can be fitted with a glass shower screen or stainless steel curtain rail.

We use only quality bathroom hardware.
